FreeStep SAS

Supported Ambulation System

SAMPLE CONFIGURATION CREATED WITH THE BIODEX FLOOR PLANNER

Biodex has recently introduced our new “Floor Planner”, a click-and-drag program that enables you to layout Biodex Physical Medicine products to your exact room specifications. It’s easy to use and great for planning! Create an account to save your drawings for future reference or to communicate with a Biodex representative at the time of purchase.

Detailing clear dimensions is essential. A Biodex Product Specialist will work with you to realize optimum utilization of your equipment, space and supported ambulation enhancements.
